

RAHUL PHAPALE

rahulphapale0306@gmail.com | +91-8380875581 | github.com/RahulPhapale

Objective

Front-End Developer with nearly 6 months of experience, skilled in building scalable, user-focused web applications. Proficient in ReactJS, JavaScript, and TypeScript. Committed to delivering efficient, high-quality solutions and enhancing application performance.

Education

Bachelor of Engineering , Dhole Patil College Of Engineering ,Pune	2022-2025
• Computer Science CGPA: 8.30	
Senior Secondary , S.M.V. Secondary and High Secondary College , Akurdi	2019-2021
• HSC (Class XII), Aggregate: 85.17 %	
Secondary , Shri Ramdas Highschool Belapur (Badgi)	2018-2019
• SSC (Class X), Aggregate: 80.80%	

Skills

Primary Skills :	ReactJS, JavaScript, TypeScript, HTML, CSS, JSON, REST APIs
Secondary Skills :	NextJS, Tailwind CSS, MySQL
Tooles Handled :	VSCode, GitHub, Swagger
DevOps :	Docker, Alpine Linux

Work Experience

Ketsol Pvt. Ltd., Pune	
Software Developer Intern (Frontend and Backend)	June 2024 – Oct 2024
- Developed and designed responsive and visually appealing web pages using React.js, JavaScript, Next.js, and Tailwind CSS ensuring optimal performance and user experience.. - Developed the UI for Ketsol Manufacturing Suite (KMS) – an IoT-based industrial analytics platform, integrating Chart.js for real-time data visualization using Table, bar, pie, and line charts. - Integrated RESTful APIs with FastAPI in Python, enabling seamless communication between the frontend and backend systems. - Collaborate with cross-functional teams to ensure seamless UI/UX integration and meet project requirements and Create reusable components with React hooks, promoting modularity and scalability.	
Deployment Engineer	Nov 2024 – Feb 2025
- Led the on-site deployment of KMS software across multiple industrial clients, including: - Indotech Industries (Madhya Pradesh) - Adani Wilmar (Visakhapatnam) - Amul Lassi (Gohana) - Configured and deployed applications using Docker containers for scalability and isolated environments. - Utilized Alpine Linux within virtual machines for lightweight, secure, and efficient server setups. - Troubleshooted network and connectivity issues related to OPC DA/UA and Modbus for PLC communication, MSSQL and MQTT protocols during deployment. - Provided technical support and training to client teams for smooth software adoption.	

Projects

Object-Detection-Master (AI-Based Project) An intelligent object detection system designed to identify and classify objects in real-time using AI. The project utilized deep learning models for high-accuracy recognition and integrated advanced image processing techniques to enhance detection speed and precision. Focused on real-time performance, the system is capable of detecting multiple objects simultaneously within various environments.

Built with a strong foundation in deep learning and computer vision, this project showcases practical applications of AI in image analysis and real-time monitoring scenarios.

Video Call App (React & Vite) A real-time video communication platform enabling seamless one-to-one video calls. Developed using React and Vite, the application integrates the ZegoCloud API to deliver high-quality audio and video streaming. The focus was on creating a smooth and responsive user experience with a clean and intuitive UI. This project highlights the integration of third-party communication services and front-end performance optimization for real-time applications.

Portfolio Website (Next.js, React & Tailwind CSS) A responsive and modern portfolio website designed to showcase personal projects, technical skills, and professional achievements. Built using Next.js to leverage server-side rendering for improved performance and SEO optimization. The design was crafted with Tailwind CSS, ensuring a sleek, mobile-friendly interface that delivers a smooth browsing experience across all devices. This project serves as a central hub for demonstrating expertise and personal branding in the tech space.

Academic and Extracurricular Achievements

- Organized and led the college cricket team to victory, winning **First Prize** in the inter-college tournament held during **Kshitij**, demonstrating outstanding leadership, strategic planning, and team coordination skills.
